

Section IV: Recommendations for Quality Enhancement of the Institution

(Please limit to ten major ones and use telegraphic language. Not necessary to indicate all the ten bullets.)

- Permanent faculty vacant positions must be filled in immediately following UGC minimum qualification specifications.
- Temporary teachers, whose performance has been very good, should be reemployed to provide continuity to the programs, especially if there are no permanent teachers in that department.
- Class rooms and teaching labs must be increased in size and numbers proportionate to number of students and programs.
- Instructional equipment in teaching labs must be increased proportional to number of students and also modernized.
- Number of new generation computers must be increased drastically proportional to number of students and faculty members.
- Not only ICT enabled rooms be increased but these must be used effectively.
- English language lab not only be modernized but number of equipment should be increased proportional to number of students.
- Sports fields must be maintained as per sports standards.
- Botanical garden should have more medicinal, herbal and other plants to represent biodiversity of the region instead of large number of papaya and guava plants.
- More research projects should be obtained from Govt. Agencies as well as industry
- Korba being an industrial place, the College should offer vocational and professional courses relevant to the region.
- Teachers as well as non-teaching staff should be given training periodically to use computers meaningfully in their work.
- Skill based, value added and add-on courses should be offered which are employment oriented.
- Coaching to willing students be arranged in evenings or weekends for various competitive examinations.
- More hostels and other student friendly facilities should be built and utilized.
- More funding from local sources, including industry, through Alumni Association etc. should be raised.
- Overall infrastructure must be increased in order to offer more programmes.
- A Department of Physical Education should be started.
- Number of technical staff in science teaching labs must be increased.
