In today's session all the students were asked to introduce themselves. Then Mrs. S. Pundlik introduced herself and showed them how to give a proper introduction. This was followed by a paper folding activity wherein students were given a sheet of paper and were asked to close their eyes and follow the instructions of Mrs. S. Pundlik as she guided them to create something. After a series of instructions the students were related to see that they had made paper boats. Paper boats guided them to their childhood and students were asked to share one childhood memory which made them happy. Students spoke first with hesitation and later grew confident. Some of them sought permission to use Hindi and shared happy memories adding to the fun filled atmosphere in the English Lab where the session was being conducted. This activity drew to an end with a couple of boys singing motivational songs out of their choice. Poetry Nillay of BA Final concluded with a soulful rendition from Gurbani. Students learnt new words, gained new confidence and realized that communication is a two-way process in which hearing or listening is just as important as speaking. The session concluded with the students promising to come back to the next session with more friends.

 Right after your session, if God would have asked me, what do you want?
